TANK SURCHARGE AND OUT-OF GAUGE SURCHARGE

Issued Date: 10/06/2023

Effective Date: 10/06/2023

TANK SURCHARGE

The Authority will assess a Tank Surcharge of \$125.00, per tank, per use, on all empty or loaded ISO tanks regardless of the tank dimensions.

OUT-OF GAUGE SURCHARGE

The Authority will assess an Out-of-Gauge Surcharge to the Ocean Carrier for cargo that exceeds the normal dimensions of a standard container, a high-cube container, flatrack, or platform by length, width, height and/or a combination thereof. The Out-of-Gauge surcharge is per container, flatrack, tank, or platform, per use.

Out-of-Gauge Characteristics	Charge
Overheight Only	\$579.00, per container, flatrack, or platform, per use
Overheight and Overwidth or Overheight and Overlength or Overwidth Only or Overlength Only	\$747.00, per container, flatrack, or platform, per use
Overwidth and Overlength	\$1,577.00, per container, flatrack, or platform, per use

Out of Gauge Specifications:

Length criteria = Greater than >40 feet

Width criteria = Greater than >8 feet (exception: Pallet Wide Container)

Height criteria = Exceeds normal dimensions of standard container, high-cube container, flatrack or platform

Questions may be addressed to the undersigned or your GPA account representative.
