Email: [uiia@intermodal.org](mailto:uiia@intermodal.org)  
Website: [uiia.org](http://uiia.org)

The Uniform Intermodal Interchange and Facilities Access Agreement, or UIIA, is a standard industry contract between intermodal truckers/drayage companies and water and rail carriers (equipment providers). The UIIA was developed as a means of achieving a degree of uniformity in the interchange process.

The UIIA covers liability and other issues related to the interchange of intermodal equipment (i.e. containers, chassis, etc.) between the two parties. It drastically reduces the paperwork burden for all parties involved by eliminating having to sign individual interchange contracts with each equipment provider that is participating in this agreement. It also reduces the number of insurance filings for the motor carrier to provide proof of insurance. Only one certificate must be issued to the UIIA and this information is then disseminated to the individual equipment providers by our office. The UIIA currently has 5,400 motor carriers, 45 water carriers, 6 railroads and 2 leasing companies that participate in the program.

## SCAC Codes

The Standard Carrier Alpha Code (SCAC<sup>®</sup>) is a unique two-to-four-letter code used to identify transportation companies. NMFTA developed the SCAC identification codes in the mid 1960's to facilitate computerization in the transportation industry.

### National Motor Freight Traffic Association, Inc. Location

1001 N Fairfax Street  
Suite 600  
Alexandria, VA 22314-1798
