**General Charges**

**Rule: 34-192 Fuel Surcharge (FSC) For Throughput Containers and Breakbulk Cargo**

To the extent diesel fuel costs exceed \$3.00, per gallon (the “Base Cost”), GPA will assess an FSC, on a per container or wharfage basis. The FSC will be invoiced on a weekly, or per invoice, basis to the ocean carrier. The FSC will be calculated monthly using the U.S. Energy Information Administration (EIA) – U.S. On-Highway Diesel Fuel Prices – Lower Atlantic (PADD 1C) Index (the “Index”) and effective thirty (30) days after publication.

For example, the FSC for July 2025, would be based on the Index released the week of May 23, 2025. The FSC will remain in effect until diesel price falls below Base Cost and will be assessed as provided, in full, regardless of any other agreements.

**Rule: 34-193 Fuel Surcharge (FSC) For GPA Facilitated Rail Moves**

To the extent diesel fuel costs exceed the Class 1 Railroads (CSX Corporation and Norfolk Southern Company) Base Cost, GPA will pass through an FSC, on a per container basis. The FSC will be invoiced on a weekly, or per invoice, basis to the ocean carrier or if applicable, the beneficial cargo owner. The FSC will be calculated monthly using the U.S. Energy Information Administration (EIA) – U.S. On-Highway Diesel Fuel Prices – U.S. Index (the “Index”) and effective thirty (30) days after publication. For example, the FSC for July 2025, would be based on the Index released the week of May 23, 2025. The FSC will remain in effect until diesel price

falls below Base Cost and will be assessed as provided, in full, regardless of any other agreements.
