

GARDEN CITY TERMINAL WEST

Savannah, GA | Long-term storage solutions

ADVANTAGES

PROXIMITY

- Onsite in Garden City Terminal with a state-of-the-art gate providing easy access for truckers. GCTW is connected to the main terminal via a direct connector road, so truckers do not have to exit the terminal for additional pick-ups or deliveries.

IDEAL ACCESS

- Offers fast and easy access to inland markets, with 45% of U.S. consumers and manufacturers living within the port's service region.
- Immediate connections to I-16 (East/West) and I-95 (North/South), means key cities and manufacturing points throughout the U.S. Southeast and Midwest reachable in one- to two-day drive.
- Integrated access to Mason Mega Rail, the largest on-terminal intermodal rail facility in the Western Hemisphere. Daily rail departures via CSX and Norfolk Southern.

GLOBAL CONNECTIVITY

- Savannah is one of the best-connected ports in the U.S. to world markets with 40 ship calls a week, 42 doublestack trains per week and 16,000 truck gate moves daily.

CREATIVE SOLUTIONS

Importers – Need to hold containers on dock beyond your allotted Free Time? Use GCTW at competitive rates in a safe, secure and grounded yard; avoid chassis fees, and pick up containers when you are ready for delivery.

Exporters – Vessel ETA pushed out and containers are stuffed and ready for delivery? No problem. Deliver them into GCTW before the Begin Receive Date, and GPA will move your containers to the pier when the vessel is ready for loading.

\$204M

self-financed infrastructure investment in capacity.

90

acres of long-term container storage.
