

ADVISORY

Appalachian Regional Port – Crandall, GA

Terminal Upgrades begin Wednesday, Sept. 23

To GPA Motor Carriers:

Beginning Wednesday, Sept. 23, the Appalachian Regional Port in Crandall, GA will begin upgrades to the facility.

Construction will take place over four phases, with each phase lasting several weeks through December 2026.

Crews will replace crane pads to improve the turning radius around container stacks and re-paint bays to increase visibility.

Drivers should watch for changes in traffic patterns on the terminal while crews are working.

Please drive safely and follow all posted signs and directions from ARP staff. If you see an issue or have a concern, please notify a team member.

Thank you for helping us keep the terminal safe throughout this project.

We are excited about how these upgrades will serve our trucking community better.
